

Acute Cholecystitis — التهاب المرارة الحاد

TEST FIXTURE — synthetic structural document for automated tests. Not a medical reference.

Right upper quadrant pain with fever suggests acute cholecystitis.

Murphy's sign is elicited by palpation under the right costal margin during inspiration.

Investigations

Ultrasound is the first-line investigation for suspected gallstones.

يُعد التصوير بالأمواج فوق الصوتية الفحص الأولي عند الشك بحصى المرارة.
